The "data_collection_permissions" property is missing.

Erro: The `"/browser_specific_settings/gecko/data_collection_permissions"` property is required for all new Firefox extensions, and will be required for new versions of existing extensions in the future. Please add this key to the manifest. More information at: <https://mzl.la/firefox-builtin-data-consent>

manifest.json

The add-on ID is missing in the manifest.

Alerta: The `"/browser_specific_settings/gecko/id"` property (add-on ID) should be specified in the manifest. This property will become mandatory in the future. See <https://mzl.la/3PLZYdo> for more information.

manifest.json

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 38 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 59 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 80 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 102 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 121 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 135 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 149 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 162 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 183 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 196 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 209 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 225 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 240 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized.

This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 255 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 274 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 296 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 310 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/ventilacao.js linha 324 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/infusao.js linha 163 coluna 17

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/agua-livre.js linha 79 coluna 13

Unsafe assignment to innerHTML

Alerta: Due to both security and performance concerns, this may not be set using dynamic values which have not been adequately sanitized. This can lead to security issues or fairly serious performance degradation.

tools/agua-livre.js linha 81 coluna 13
